

Beautiful Butterfly

Embroidering The Design

1. Trace onto muslin square or flour sack dishtowel with a transfer pencil, mechanical pencil, or pigma pen.
2. To embroider, you will need a small embroidery hoop, needle and floss. As you work, use two strands of DMC floss cut to an approximate 24" length.
3. Outline stitch over the tracing you made, making sure the back of your work is neat and tidy.
